The range includes Water, Foam, CO₂ and Powder units and offers solutions for almost all situations. The internationally recognised BS Kitemark is assurance of dependable design and manufacture.

COMMANDEREDGE

PLAIN WATER FIRE EXTINGUISHER

A water-based fire extinguisher is a popular choice for Class A fires (combustible materials). Water fire extinguishers work by cooling the fuel and ensuring it burns at a much slower pace until the fire is extinguished. With a low cost price, ease of maintenance and the fact they're an environmentally friendly option, it's easy to see why water fire extinguishers are a preferred choice for many businesses.
